KEY PROJECTS

Corbett Bakers App

[Live Demo](#) | [GitHub](#)

Tech Stack: React.js, Java, Spring Boot, JWT, REST APIs, Tailwind CSS

- Designed and engineered a production-ready, full-stack e-commerce application for a local commercial bakery business.
- Implemented secure user authentication and authorization using JSON Web Tokens (JWT) along with an interactive admin panel dashboard for seamless, secure inventory tracking and management.
- Architected an innovative decentralized checkout system that parses dynamic live cart state directly into highly formatted, instantly actionable WhatsApp business receipts, accelerating the manual order placement pipeline by 40%.

Book Our Uttarakhand (Freelance Client Project)

[Live Website](#)

Tech Stack: React.js, JavaScript, HTML5, CSS3, REST APIs, Vercel, Hostinger

- Developed a high-traffic, fully responsive travel booking platform designed to showcase curated tour packages and destinations across Uttarakhand.
- Engineered a modular library of reusable React functional components, significantly improving layout maintainability and front-end scalability.
- Integrated secure external REST APIs to handle dynamic data rendering, optimizing asynchronous resource loading speeds, rendering accuracy, and cross-browser fluidity.

Pahadi Store – Himalayan Ecommerce App

[Live Demo](#)

Tech Stack: React.js, JavaScript, Tailwind CSS, Responsive Design

- Built an elegant, responsive e-commerce application aimed at promoting authentic indigenous Himalayan organic goods and regional crafts.
- Structured a comprehensive product catalog system coupled with category-specific filtering logic to enable smooth user discovery.
- Deployed vital e-commerce workflows including dynamic marketplaces listings, context-aware descriptive product item pages, and a client-side persistent shopping cart to lower drop-off rates.
